ASSEMBLY INSTRUCTION

EDGE LED Counter

1. Unpack the counter from the box and the transportation bag.

2. Unfold the pop-up frame and make sure that bottom black feet are on the ground.

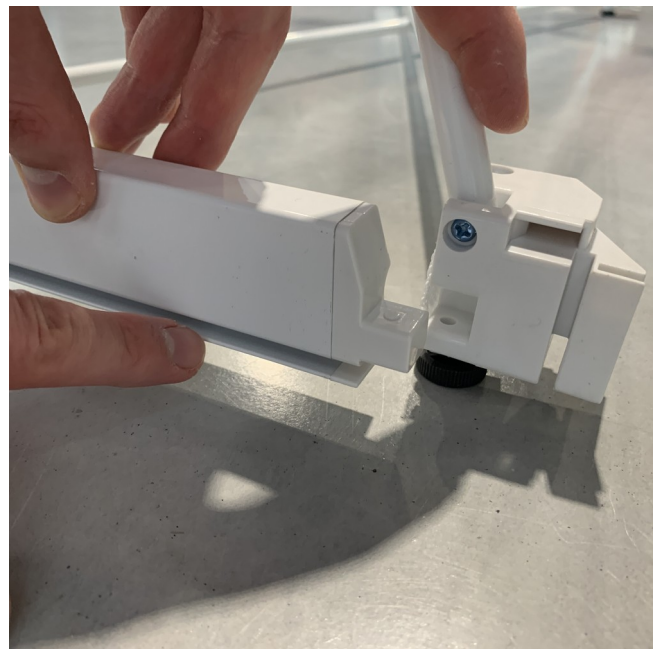

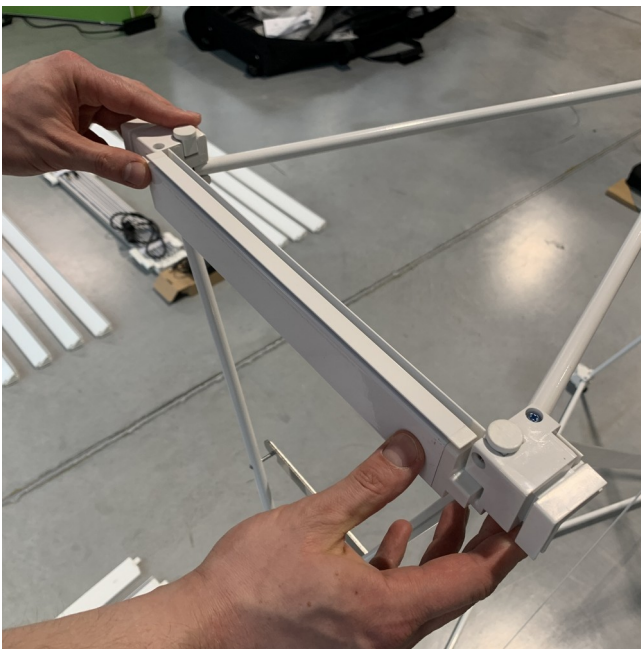

ASSEMBLY INSTRUCTION

EDGE LED Counter

3. Lock the steel latches on the screws placed in the structure. Make sure that the flat washer is on the inside.

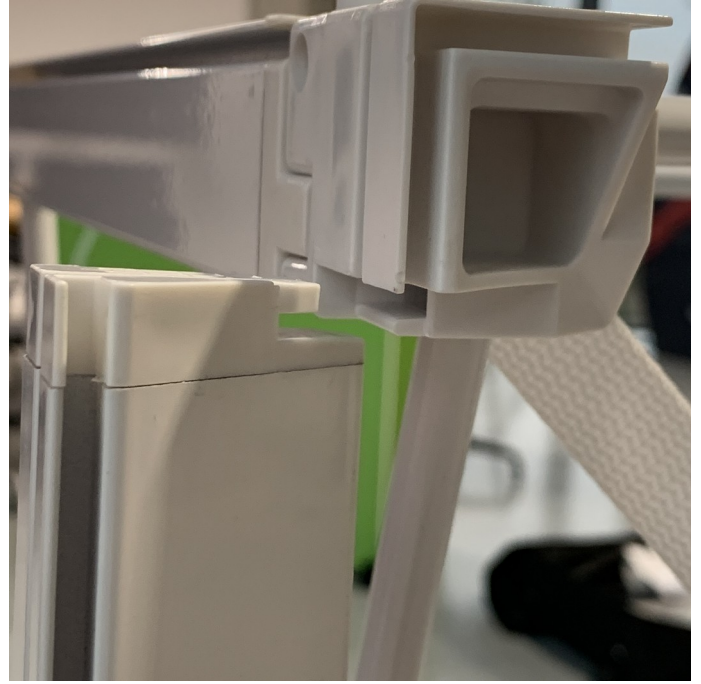

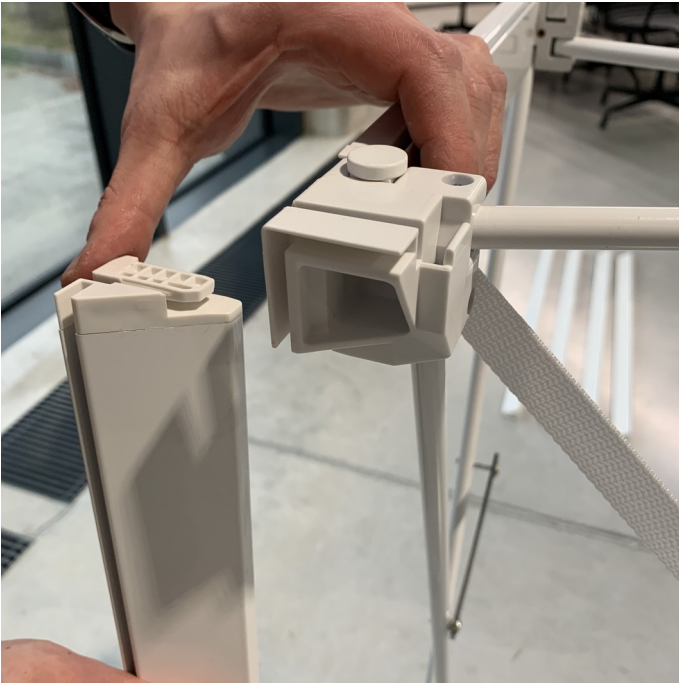

4. Install short white profiles in cubes on the corners of the structure. Pay attention to the pictures so the sleeves are in the right position.

ASSEMBLY INSTRUCTION

EDGE LED Counter

5a. Install 4 long white profiles vertically in the corners of the structure according to the photo. All long profiles are universal and fit both vertical and horizontal joints.

ASSEMBLY INSTRUCTION

EDGE LED Counter

5b. Install 4 long white profiles horizontally on the corners of the structure according to the photo. All long profiles are universal and fit both vertical and horizontal joints.

ASSEMBLY INSTRUCTION

EDGE LED Counter

6. Place the curtain with LED lighting in front of the 'X' stripes, hooking it to the pop-up structure. Pay attention to the 'UP' and 'DOWN' signs on the LED curtain.

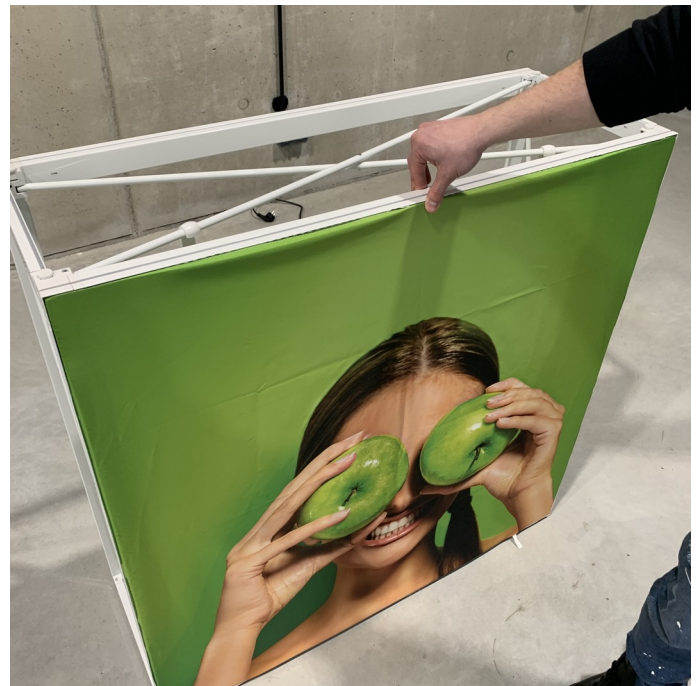

Note: The front of the counter is the part with the 'X' textile stripes closer to the edge.

ASSEMBLY INSTRUCTION

EDGE LED Counter

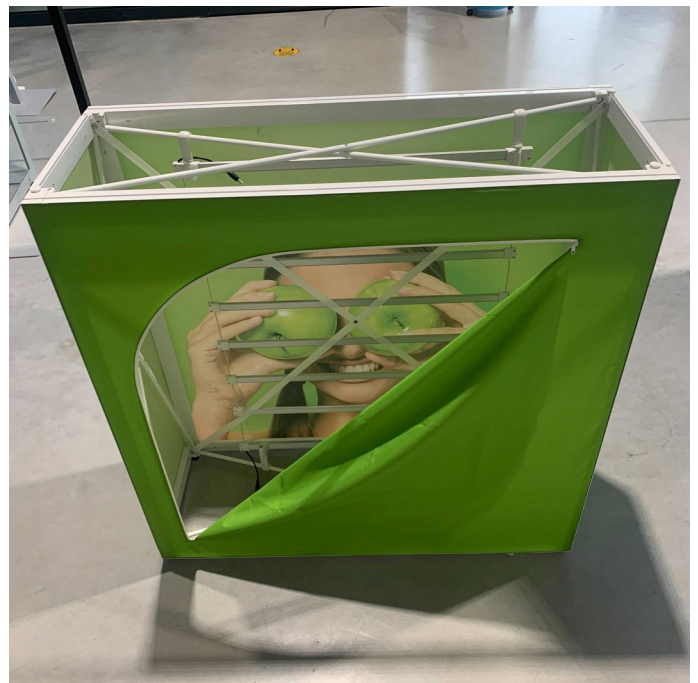

7. Fix the print in the sleeves starting from the corners and then proceed with top, bottom and sides at last. You can flip the frame around to have easy access to the sleeves.

ASSEMBLY INSTRUCTION

EDGE LED Counter

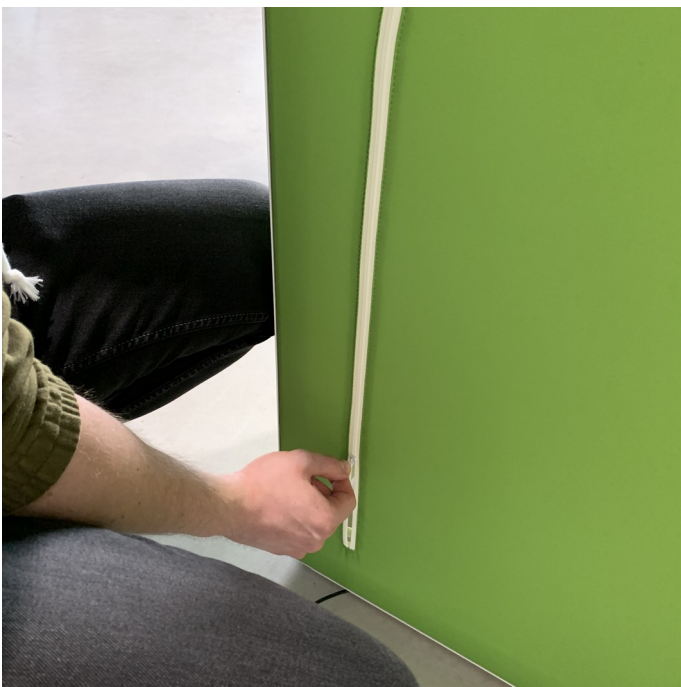

8. Repeat the step 8 for sides and back. Unzip the back for easier installation.

ASSEMBLY INSTRUCTION

EDGE LED Counter

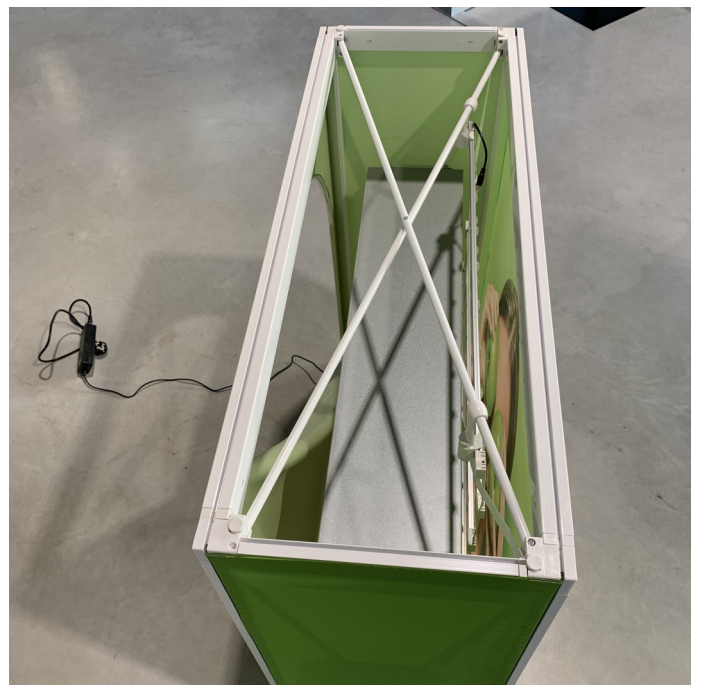

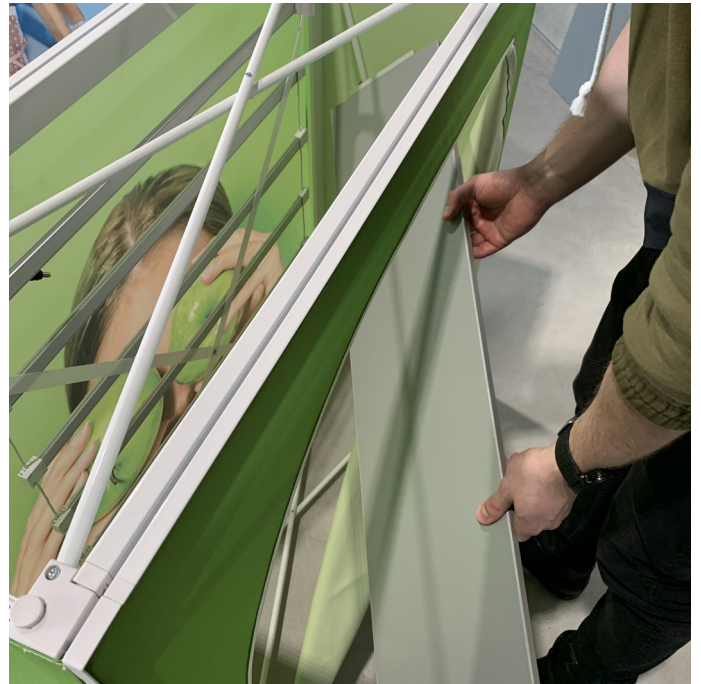

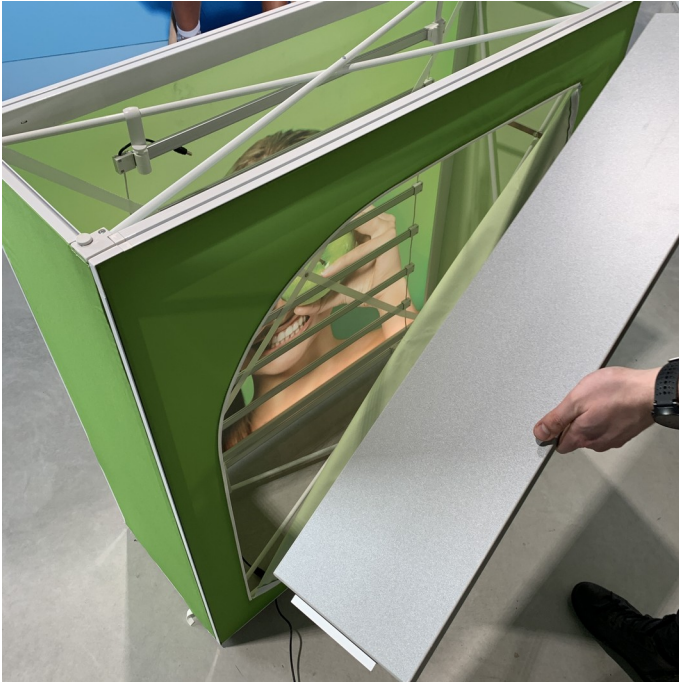

9. Make sure the back is unzipped. Put the cable under the frame and connect it to the LED ladder. Zip up the back and plug the cable into a power plug.

ASSEMBLY INSTRUCTION

EDGE LED Counter

10. Place the shelf on the metal clips from step 3.

ASSEMBLY INSTRUCTION

EDGE LED Counter

11. Install the tabletop making sure that the holes fit well on the fixing points.

ASSEMBLY INSTRUCTION

EDGE LED Counter

12. Product is ready for use.

EDGE LED Counter

1. Can you clean the print?

You can clean the print with a mild detergent and a damp cloth.

2. Can you use the counter outdoors?

We do not recommend using it outdoors. The LEDs and transformer are not dedicated for such use.

3. Does the counter have a battery?

No. For use you need to have a constant access to a power plug.

4. Can I change the colour of the illumination? (RGB)

The counter is only illuminated in white colour.

5. What printing method is used for production?

We use sublimation for production of this product.

6. Can I connect two counters with one print?

Yes, you can. Let us know and we will supply you with adjusted template for the artwork.

7. What do I do if a part is missing?

Contact us via e-mail and try to explain the situation as good as possible. We will resolve the problem as soon as it is possible.

8. What is the standard production time and delivery?

Production should take no more than 3 working days. Delivery varies from 2 to 6 days depending on which country you are from.

9. Can the package be shipped as a no-name? (no shipper details)

Yes, in this case we will use UPS or GLS where we can send it no-name or with your company's details.

10. How many kilograms can I put on the tabletop?

The tabletop is designated to hold up to 40kgs.

11. What is the tabletop made of?

The tabletop is made of furniture board.

12. Can I later change the print?

Yes, just talk to us to order another one.

FAQ

EDGE LED Counter

13. Can the tabletop be in a different colour than silver?

This model cannot have tabletop with different colours.

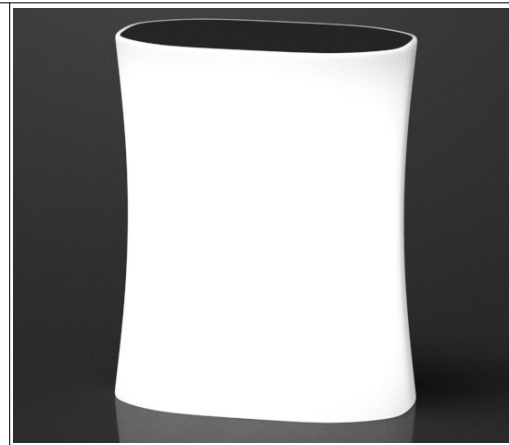

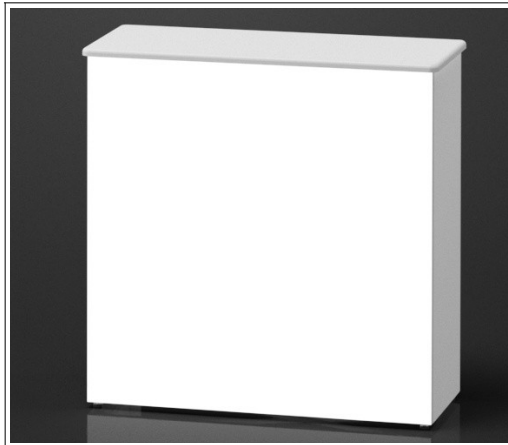

14. Does the counter have wheels?

The counter doesn't have wheels, however the transportation bag has wheels for easier transportation.

15. What is the warranty period?

Both for frame and print you receive 1 year warranty. Please remember that warranty does not include mechanical damage.
