

a. adWall Vario Tunel dwustronne

DPI Resolution: 1200 ppi – 1:10 scale

File format: PDF

Color: CMYK - Coated FOGRA39

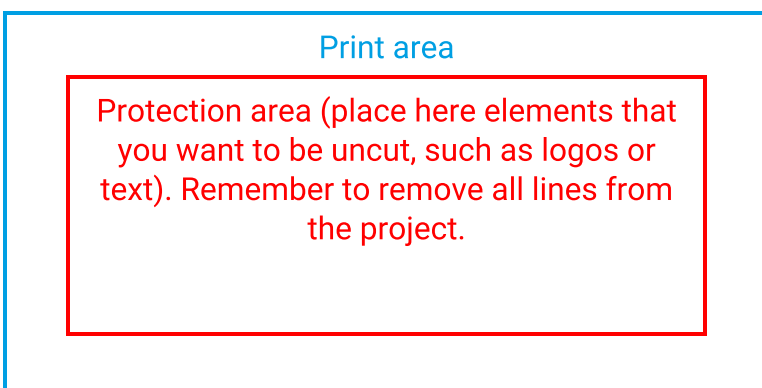

flattened file (no layers),
no print marks,
no overprint attribute,
no bleeds,
do not change the size of the template ,
convert fonts to curves ,
save the project as a one-page pdf

Remove the red and blue lines before saving the files. Leaving the line on will result in it being printed as a design element! In order to properly display the advertisement, all important elements should be inside the protective area marked with **red line**. Background and graphics must fill the entire printable area marked project marked with **blue line**. If there is no fill between the red and blue lines, a white frame will appear on the printout.

Download and work on the graphic design template on the next page of this PDF. If there is more than one, prepare the projects in separate files.

Guideline Label Legend:

A red outline of a tunnel cross-section. The shape is roughly rectangular with rounded corners. The top edge is a smooth curve that starts at the top right, goes left, then curves down and left, then curves back up and right towards the top right. The right edge is a straight vertical line. The bottom edge is a straight horizontal line. The left edge is a smooth curve that starts at the top left, goes down, then curves right and down, then curves back up and left towards the top left.
